Snowblower Service

Customer Name: _____ Phone #: _____

Address: _____

Please check below the work you would like performed on your snowblower. I only perform the work you authorize. This will help give clarity of what work I will do and what you expect to be done.

Packaged Services:

- Tune-up: Includes oil change, spark plug replacement, check the auger belt, drive belt and friction wheel for cracks. Also check the auger and impeller for broken or missing shear pins. Check the friction wheel for proper alignment and lube the chassis if applicable. Set the skid shoes to the proper height. It does include cleaning and rebuilding the carburetor.

- PM: Preventive Maintenance includes all of the above, but ***it does not include cleaning and rebuilding the carburetor.***

Individual Services:

- Carburetor clean: Clean & rebuild the carburetor. May also include draining and cleaning out the fuel tank if there is contaminated fuel.

 - Oil change: Synthetic blend oil SAE 5-30

 - Spark plug: Replace with O.E.M. spark plug

 - Auger belt: Replace the auger belt

 - Shear pins: Extract and replace the sear pins

 - Recoil repair / Electric starter: Replace the rope and repair if possible or replace the starter

 - Tire repair: Inflate the tire or insert a tub if needed

 - Cable replace: Zone control cable or drive cable

 - Auger / impeller Not turning: Replace the internal brass gear if broken and not turning

 - Other issues: Please be specific.
-
